

# NEXUS<sup>2</sup> EXPANSION: VINTAGE DRUMKITS

This expansion is something really special for NEXUS2 enthusiasts.

It features complete drumkits (each containing 61 GM-mapped samples), loops and bonus-sequences.

Virtually every cult-machine is represented but modern New RnB HipHop, Electronica, Industrial, Ambient, Heavy Rock, Dub kits are featured as well.

Freaky kits like C64, Amiga/Mod, AdlibFM, Timestretched and Distorted are included as well.

Genre-specific kits like 70's Vinyl Kits, 80's big Ballad Kits, Human Beatbox, Amen Breakbeat or an "orchestral Movie Kit" (with REAL big drums) round off this spectacular expansion.

Nearly 4000 single-samples! Have fun.
